

Subject index

Blood groups and biochemical polymorphism in cattle

- Naturally occurring antibody in bovine fetal serum: reactivity against homologous and heterologous species erythrocytes: W. J. Miller and W. T. Hubbert 3
- Variation in the haemolytic rate of red cells in cattle: Josef Sellei 35
- A rare haemoglobin variant in Afgan cattle and crosses: N.D. Khanna, Harpreet Singh, S. S. Bhatia and P. N. Bhat 59
- A new β -casein variant in Piedmont cattle: G. E. Voglino 61
- Haemolytic factor in bovine seminal vesicle fluid. 3. Inheritance of cattle erythrocyte sensitivity towards the haemolytic factor: J. Matoušek and R. Staněk 151
- Soluble glutamic oxalacetic transaminase (GOT) polymorphism in cattle: M. Ansay and R. Hanset 163
- The failure of induced anemia to affect changes in hemoglobin and chimerism in cattle: R. L. Niece, Stephanie Bendel, Joan Caulton, J. Bacon, R. G. Cragle and W. H. Stone 201
- Purine nucleoside phosphorylase (NP) of bovine erythrocytes: genetic control of electrophoretic variants: M. Ansay and R. Hanset 219
- Serum post-albumins and fertility in dairy cattle: G. C. Ashton 229
- Resolution of cattle transferrin in starch-gel at pH 6.3: L. F. Bailey and C. A. Kiddy 245

Blood groups and biochemical polymorphism in pig

- El-Em, the fourth closed E subsystem of blood groups in pigs: J. Hojný and J. Hradecký 51
- Iso-antibodies to red cell antigens in pigs' sera. 3. The effect of maternal red cell iso-antibodies on the red cells of piglets: K. A. Linklater 77
- Alloantigens common to erythrocytes and leucocytes in pigs: V. Hruban, M. Simon and J. Hradecký 157
- Gene interaction and the A-O and H blood-group systems in pigs: B. A. Rasmussen 169
- Immunogenetic studies of wild European, Asian and American Suiformes in connection with the origin of some antigens in *Sus scrofa domestica*: V. N. Tikhonov, I. G. Gorelov and Anna I. Troshina 173
- Polymorphism of sorbitol dehydrogenase and 6-phosphogluconate dehydrogenase in swine (*Sus scrofa*): J. Op 't Hof, D. R. Osterhoff and G. de Beer 237

Blood groups and biochemical polymorphism in horse

- Phosphoglucomutase polymorphism in Swedish horses: S. Bengtsson and K. Sandberg 115
- A third allele in the horse albumin system: K. Sandberg 207

Blood groups and biochemical polymorphism in sheep and goat

- Erythrocyte glutathione level in relation to blood potassium type in Rajasthan desert sheep: S. D. Kalla, P. K. Ghosh and G. C. Taneja 121
- Hemoglobin function in the developing goat and sheep: Michael H. Blunt 211
- Distribution of R-r-i blood group system in Australian sheep: Peter J. Healy 241

Blood groups and biochemical polymorphism in chicken

- Isolation and partial characterization of polymorphic prealbumins from chicken egg yolk and serum: A. Stratil 63
- Molecular genetics of avian proteins. XI. Egg proteins of *Gallus gallus*, *G. sonnerati* and hybrids: C. M. Ann Baker and Clyde Manwell 101
- Chicken iso-immune red cell agglutinins produced by plasma injections: C. C. Oosterlee 181
- Anim. Blood Grps biochem. Genet.* 3 (1972) 249

INDEX

Blood groups and biochemical polymorphism in fish

- Inheritance of esterases in the white crappie (*Pomoxis annularis*), black crappie (*P. nigromaculatus*), and their F₁ and F₂ interspecific hybrids: R. A. Metcalf, G. S. Whitt and W. F. Childers 19
- Electrophoretic variants of aspartate aminotransferase and adductor muscle proteins in the native oyster (*Ostrea lurida*): Allyn G. Johnson, Fred M. Utter and Karl Niggol 109
- The genetic control of transferrins in *Pleurodeles waltlii*: M. Th. Chalumeau-Le Foulgoc, J. M. Fine and L. Gallien 141

Blood groups and biochemical polymorphism in wild animals

- Electrophoretic investigation of plasma and red cell proteins and enzymes of Macquarie Island elephant seals: E. M. McDermid, R. Ananthakrishnan and N. S. Agar 85
- Genetic variation of tetrazolium oxidase in the fat-tailed dunnart *Sminthopsis crassicaudata* Gould (Marsupialia): R. M. Hope 95
- The red cell antigens of wild Canidae: R. W. Bull and A. J. Bowdler 179

General

- The serological specificity of snail agglutinins (protectins): G. Uhlenbruck, G. I. Pardoe, O. Prokop and I. Ishiyama 125
- The preservation of bovine erythrocytes frozen in liquid nitrogen and stored at -170°C for up to five years: G. L. Zink and H. C. Hines 147
- Antibodies against maternal γ -globulins: P. Speiser 189

Society news

- Horse blood typing comparison test 1973 185
- Sheep reagent comparison test 185
- Business meeting, Vienna, 30 June 1972 185
- Proposals for red cell antigen and protein polymorphism nomenclature 186
- Treasurer ISABR 187
- Proceedings 187
